

April 27, 1939

Mr. J. T. Leigh
Water Commissioner
Cedar City, Utah.

Dear Mr. Leigh: REL: COAL CREEK DISTRIBUTION.

This will acknowledge receipt of your letter of April 24, 1939, wherein you answer the complaint with reference to the division of water on Coal creek as made to me by Millard Halterman, president of the North Field Irrigation Company. I had forgotten the name of the man who made the complaint while I was in Cedar City; however, he did say he was president of that company and I presume, therefore, it is Mr. Halterman.

I was glad to note he had conferred with you regarding this matter, that you had taken him to his weir where the water was measured, and that a check measurement was made at a second weir which indicated his company was receiving its prorata share of the water. I am sure you have also satisfied Mr. Halterman that you are prorating the water correctly by making your measurements at the point of diversion of each of the canals; at least you have convinced me that your method is the proper one.

I wish to thank you for your immediate reply to my inquiry.

Yours very truly,

T. H. Humpherys
STATE ENGINEER
